

St Michael's - Breaston

Products used: Theo Chair

"We are delighted that the chairs can be moved around so easily! Indeed, last night the central block of chairs was removed, and the left and right blocks were angled in for a different type of informal service (children on bean bags in the central area!). But the fact that we can do it at all is testament to the re-arrangability (if there is such a word!) of the Theo Chair."
